## **Tuesday-Friday**

- Dry weather is expected through the week for the majority of the state
- Hot temperatures are expected across interior portions of Inland and Southern Regions for midweek, with cooling expected late in the week
  - Moderate heat risk impacts are possible across the Central Valley for Tuesday and Wednesday, with daytime highs of 97 to 105 expected
  - High to locally very high heat risk impacts are possible across interior portions of southern California, with readings of 105 to 120 possible, especially across the deserts.
- Typical for the time of year, locally breezy conditions for the mountains and foothills each afternoon and evening will maintain elevated to briefly critical fire weather conditions through at least late week
  - The most widespread gusty winds are expected Wednesday and Thursday, especially across the Sacramento Valley, surrounding foothills, and the Sierra, where critical fire weather conditions could develop
  - Near-critical fire weather conditions are possible each afternoon through Thursday across the southern interior valleys, mountains, and deserts where some stronger wind gusts to 35 mph are expected
  - A few additional periods of near-critical fire weather conditions are also possible for the Santa Barbara County mountains and south coast each night through Thursday due to stronger Sundowner winds up to 45 mph

## **Saturday-Monday**

- A potential return of monsoon moisture could help produce showers and thunderstorms across southern California over the weekend into the beginning of next week, though the exact timing of the return of these thunderstorms is uncertain at this time
- Generally cooler temperatures are expected through the weekend into the beginning of next week, with no significant heat concerns
- Elevated fire weather concerns will continue into next week, especially in the mountains and foothills
